

Ephesians 4:16 NLT

One of the benefits of connecting in relationship with a local church family is the way in which God deals with that family as a whole.

We are not just along for the ride in this thing called the church.

It's not just what He's doing in our church; it's what He's doing in you!

God always calls for a time of consecration as you are in preparation to walk in areas of newness.
