

# Joshua

**Monday**

**Joshua 3:6-8**

What is your usual reaction to facing the law, it's commands or having to examine the sin in your life?

Why do you think it was important that God exalt Joshua before the people in place of Moses?

Name some "rivers" that you have crossed and some that you failed cross.

---

**Tuesday**

**Joshua 3:9-13**

Make a list of what God has drive out from your path. What is still in the way?

List the Tribes of Israel. What do you know about these men and their history?

What event should verse 13 remind the Hebrew nation of? Why would they need this reminder at this time?

---

**Wednesday**

**Joshua 3:14-16**

What might the people who lived around the river have been thinking when they witnessed this scene?

Do people witness amazing things in your life? What are their reactions?

Are you getting wet when you cross rivers (doing things in your own power) or are you walking in harmony with God's perfect timing? Why is it a better idea to wait on God?

# DOMINE

## Joshua

**Thursday**

**Joshua 3:17**

How long might the Priests have stood in the river bed while the nation walked by? Consider the number of people there might have been as well as what they would have brought with them.

Are you willing to endure while God works out something that may take a while? Why or Why not?

What blessings could we forfeit when we start well yet finish poorly or don't finish at all? Are you a finisher?

---

**Friday**

**Joshua 4:1-7**

Why was it important for Israel to make a memorial for what God had done?

For what should the church pile stones to make a memorial?

What is the church good at remembering and for what could it us some work?

---

**Saturday**

**Joshua 4:1-7**

How have you personally made a memorial to the lord for your children and grandchildren to see and ask about?

Name something that God has done for you that needs to be passed down. What will you do about it?

Why might remembering be so important for our walk with the lord someday?
